RE: Town of Paonia – Colorado Open Records Request C 26-09

I am in receipt of your request for records under the Colorado Open Records Act (CORA), received by the Clerk's Office on March 25, 2026:

"Complete executed contract between Town of Paonia and Mitchell and Company for the Verkada Security Camera System, including all amendments and the Verkada Service Agreement."

Attached are the documents responsive to your request:

1. Verkada – Mitchell and Co., Signed Quote

"Data retention policy for Verkada security camera footage, including automatic deletion period settings."

Attached are the documents responsive to your request:

1. Additional information contained within the above-referenced quote
2. Screenshots 14025, 140326, 140407, 140451, 141050, 141138, 141257, 141354, 141447, 141538, 141627, 141721, 141814, 142340, 142413, and 145000

"Access logs for all Verkada cameras showing who viewed feeds, dates/times, and purpose, from installation (October 22, 2025) to present."

Attached are the Excel documents responsive to your request:

1. VERKADA – Audit Logs_REDACTED
2. Verkada_Audit Log_REDACTED

"All written policies, procedures, or guidelines governing use, access, and retention of Verkada camera footage."

1. See screenshots referenced above under "Data retention policy…"

"All internal correspondence (emails, memos, texts) between Town Administrator Wynn, Police Chief Laiminger, and PW Director Poulos regarding selection, procurement, and deployment of the Verkada system from January 1, 2022 to present."

CC:

You withdrew this request (see attached email).

Partial Disclosure and Transparency

Colorado guidance recognizes that records revealing the details of security systems and their operation—even when monitoring public spaces—may be withheld or redacted to prevent exploitation and to protect the public interest.

Device identifiers associated with the Town's security camera system have been redacted pursuant to C.R.S. § 24-72-204(2)(a), as disclosure would reveal internal security configurations and technical identifiers whose release could compromise the integrity and safety of public security infrastructure. The Town has released non-exempt portions of the audit logs sufficient to show the nature, timing, and purpose of system access without exposing sensitive security details.

User IDs reflected in the audit logs have been redacted because they are system access identifiers tied to authentication and account management within the Town's security camera platform. Disclosure of these identifiers could:

- Facilitate unauthorized access attempts
- Enable phishing, credential-stuffing, or social engineering attacks
- Reveal internal access controls and security monitoring practices
- Expose personally identifying information of Town employees or contractors

Under CORA, custodians may protect personal privacy and security procedures where disclosure would create a risk that outweighs any minimal public benefit, particularly where the information does not meaningfully contribute to government oversight.

Consistent with CORA's requirement that exemptions be narrowly construed, the Town has disclosed all non-exempt portions of the audit logs necessary to show:

- When security cameras were accessed
- What type of action occurred (e.g., viewing, export, system check)
- Which camera location or zone was involved (where appropriate)
- The role or classification of the user account (without exposing login identifiers)

This approach preserves transparency regarding Town camera usage and oversight while avoiding disclosure of sensitive technical identifiers whose release would be contrary to the public interest.

With the delivery of these records, the Clerk's Office has closed this CORA request.

Thank you,

Samira M. Vetter, CMC
Town Clerk/ Official Custodian of Records

Materials:	$41,593
Current year recurring:	$0
Estimated labor:	$8,695
Total Estimate:	**$50,288**

Date: 8/18/2025

Accepted by:

Stefen Wynn, Town Administrator & Treasurer

Receipt of this deposit amount will initiate the start of this project. ***$41,593***

Goals

1. Provide and install CAT6 cabling as neccessary at the following locations as well as labor to install verkada cameras.

Assumptions/Notes

1. Main Building-Provide and install CAT6 to specified camera locations.
2. Influent building-Provide and install labor to install one camera.
3. Main building- Provide and install labor to install outdoor cellular gateway and two cameras.
4. Town Park - Provide and install labor to install three cameras and neccary componets/cabling.
5. Town Hall - Provide and install labor to install two exterior cameras as well as two CAT6 cables to specified camera locations.
6. Town hall interior - provide and install labor to install two cameras.

-Water Treatment - Main Building	***Subtot Labor Hrs/Price:***	**4.00**		**$740**
Total Labor: **$8,695**		**47.0 estimated hours**		

This project will be billed on actual time; labor figures provided in this proposal are an estimate. Proposal approvals via email or simply paying the stated deposit amount will constitute the equivalent of a proposal signature and acceptance.

On or about the date the deposit is received, Mitchell and Company (MaC) will order all materials, described in this Proposal. All deliveries and services performed at the Customer site will generally be during normal business hours (8:00am to 5:00pm) Monday through Friday, excluding holidays, at the hourly rates set out in Labor section of this Proposal. MaC reserves the right to charge labor at 1 ½ times the rates set out in the Labor section for work done after hours, on holidays and weekends. Reasonable incidental out-of-pocket expenses will be charged as incurred. Travel and lodging expenses will be paid by Customer. Mitchell and Company will provide reasonable documentation of all expenses.

MaC will progress invoice labor semi-monthly for the duration of this project. Customer agrees to pay each invoice by its respective due date. Applicable finance charges of 1.5% per month will accrue on balances past due. Any bank payments returned for insufficient funds or any other reason are subject to a $50 fee.

MaC will act in a diligent manner in the installation and configuration of the hardware and software, described in this Proposal, to achieve performance of the systems in accordance with the manufacturer and/or vendor specifications. MaC does not guarentee the compatibility of any vendor hardware and software, but depends on respective vendors to ensure this compatibility. Customer understands and agrees that MaC is not responsible for problems due to information that the manufacturers and/or vendors of hardware and software fail to supply, including but not limited to the compatibility, configuration and performance of such hardware and/or software. Installation services, in addition to those estimated, may be required to remedy any compatability issues and will be invoiced. Customer understands and agrees that failure in meeting schedule or failure in the delivery of goods and services by other service providers, contractors, vendors or customer personnel directly or indirectly involved with this project will not delay payment for services delivered by MaC. Over the course of time, additional MaC services may be required to install, configure and maintain hardware and software in an operational condition. Customer is solely responsible for ensuring that it is in legal and regulatory compliance with licensing and any other compliance laws, rules and regulations, and holds harmless MaC for any customer compliance deficiencies.

Customer will provide access to relevant facilities, during normal business hours and as otherwise reasonably required, and provide access to necessary and appropriate personnel to assist MaC in the sucessful and timely completion of this Project. Customer is solely responsible for providing detailed technical requirements and specifications for integrating with other hardware, software or systems with the systems provided under this proposal. Customer is responsible for describing in full details desired functionality for integration of other hardware, software or systems with the systems provided under this proposal.

The Pricing described in this Proposal is good for 30 days of the Proposal date and includes the hardware and software set out in the Materials section and does not necessarily include any or all applicable shipping, freight and taxes which the Customer is responsible for paying. Pricing is based on the most recently available price quotations from applicable manufacturers and/or vendors and may vary at the time of ordering. If individual item pricing varies by more than 10%, Customer will be notified and have the option of choosing a substitute product, if available.

Additional Work. This project does not include any written materials, documentation, diagrams, or any other documentation that is not expressly included in this proposal. These items and any work not specifically described within this proposal is considered to be outside the project scope and may be priced and performed separately. Any changes to the scope of this project may require a written change order which may take from 24-72 hours to process and may impact the completion date. During the course of this project, if we determine circumstances are such that substantially greater work is required than estimated, we will discuss it with you and gain your approval before proceeding.

The Customer agrees that this Proposal is solely intended for the Customer. The customer acknowledges that all information contained in the Proposal is considered confidential. Both the Customer and MaC agree not to release any confidential information in any shape, form, or method of communicating.

Termination for Cause and Remedies. Customer may terminate this Proposal for Convenience any time upon written notice to MaC, in which case Customer will pay MaC for all hardware, software, other miscellaneous items and labor to date and neither party will have any further obligations under this Proposal.

Product Acceptance and Return. The Customer must report any claimed hardware and software delivery shortages within 3 business days of hardware and software delivery. MaC will work with Customer to try to secure a refund for any products committed to, but not used for this project. Customer agrees to pay for any such products and/or applicable restock or return fees in the event a return and refund is not possible.

Warranty. Manufacturer warranties for hardware and software, as such exist, are the sole and only warranties for proposed products. Customer agrees to rely solely on such manufacturer warranties, as such exist. Consulting labor requested by customer to remedy manufacturer warranty issues will be invoiced in accordance with our standard billing rates at such time work is conducted. MaC warranties implemention services to the extent of the scope of this specific project, based on mutual written agreement at the conclusion of this project. Services provided thereafter will fall under billable general support. MaC disclaims all other warranties, express or implied, inlcluding but not limited to, warranties of merchantability and/or fitness of purpose.

Limitation of Liability. Under no circumstances will either party be liable for indirect, punitive, special, incidental and/or consequential damages, in connection with or arising out of this Proposal (including loss of profit, data, or other economic advantage), however such claimed loss may arise. Each party agrees to the waiver of all claims against the other party, and any claims will be limited to the dollar amount of the products and services provided to Customer under this Agreement.

Re: CORA Deposit Requested

From Pete McCarthy <petefromsf@gmail.com>
Date Mon 3/30/2026 1:08 PM
To Samira Vetter <SamiraV@townofpaonia.com>

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Ms. Vetter,

Thank you for the cost estimate for C 26-09. I'd like to narrow the scope of this request.

Please remove the archived email review portion from the request. I am only requesting the audit logs referenced in the original request.

Please provide a revised cost estimate and deposit amount reflecting this reduced scope, along with instructions for how to submit the deposit payment online.

Thank you,
Peter McCarthy

Colorado Open Records Act Request Form

The first hour of research and retrieval is free and you will be charged thereafter at $33.58/hr in 30 minute increments. You will be contacted before any paid time is incurred with an estimated cost and request a required deposit to continue the records request. Black and white 8.5 x 11 copies will be charged at $0.25/page

Please read the Town of Paonia's Colorado Open Records Act Public Records Request Policy for more information on submission, response, procedure, and fees.
Please make sure there is at least one current and legible way to contact you for any questions the Town Clerk may have to help in your request.

Name: Pete McCarthy _____ Date: 03/22/2026_ Phone: (415) 623-9773__

Mailing Address (if applicable):_____

Email Address (if applicable): petefromsf@gmail.com Physical or PDF: PDF _____

This form is for requesting already existing records and does not apply to Criminal Justice Records which must be requested directly from the Paonia Police Department. To facilitate the search, please be as specific as possible in describing the requested document(s).

Number of Copies	Document Name or Detailed Description
1	Complete executed contract between Town of Paonia and Mitchell and Company for the Verkada Security Camera System, including all amendments and the Verkada service agreement.
1	Data retention policy for Verkada security camera footage, including automatic deletion period settings.
1	Access logs for all Verkada cameras showing who viewed feeds, dates/times, and purpose, from installation (Oct 22, 2025) to present.
1	All written policies, procedures, or guidelines governing use, access, and retention of Verkada camera footage.
1	All internal correspondence (emails, memos, texts) between Town Administrator Wynn, Police Chief Laiminger, and PW Director Poulos regarding selection, procurement, and deployment of the Verkada system, from Jan 1, 2022 to present.

C.R.S. 24-72-201 to 24-72-309

Note: The Town Cleck will deem the request received on the next business day after submittal.
