Investigation Narrative

Incident: Traffic Accident

Synopsis:

On 05/23/25 at about 1400 hours, the Paonia Police Department had been notified of a possible traffic accident in the vicinity of 3rd St and Onarga Ave. This took place in the Town of Paonia, County of Delta, and State of Colorado.

Narrative:

On 05/23/25 at about 1400 hours, the Paonia Police Department had been notified of a possible traffic accident in the vicinity of 3rd St and Onarga Ave.

Once I was on scene, I was able to contact Autumn Wynn (DOB: [REDACTED]). Autumn had told me that she was driving East bound on 3rd St when she had heard a small "bang" sound. Autumn stated that she had assumed that she had just hit the mirror of her vehicle on something. Autumn stated that she had instantly driven around the block so that she could go back to where she had heard the bang. Autumn stated that she had parked her vehicle and looked at her passenger side mirror when she noticed that there was a white scratch on it. Autumn then pointed to a White Chevrolet Silverado (LIC#: [REDACTED]) in front of her vehicle and stated that this vehicle was the only vehicle she could find that had white mirrors.

I then inspected Autumn's passenger mirror to her Black Jeep Grand Waggon (LIC#: [REDACTED]). I had observed a slight white scratch on the front of the mirror. I then inspected the white Silverado, but I had noticed many black scratches on the driver's side mirror, I could not detect which scratch was from Autumn's vehicle. I was able to get Autumn's driver's license, the registration for her vehicle, and the insurance information for her vehicle.

I had then taken pictures of the information Autumn had provided for me. I then asked Autumn if she had been texting or had gotten distracted, to which she stated that her son had been acting up all day and that he was screaming. I could audibly hear a kid from inside of Autumn's vehicle yelling. I would like to note that from previous encounters with Autumn, her son does have "Autism". I then told Autumn that she could leave so that she could tend to her son's needs.

I then drove through the area so that I might have been able to find a residence with security cameras. I was able to see that the residence of [REDACTED] 3rd St did have a "Ring" doorbell. I approached the residence and contacted a resident of the home. She stated that her husband, Richard Stelter (DOB: [REDACTED]), had access to the camera and that she would send the footage to me. I asked the female if she had known who owned the white Chevrolet, to which she stated that the owner could live at [REDACTED] Onarga Ave.

I walked over to the residence and contacted the homeowner. I the male who owned the white Chevrolet to which he stated that there was another home at the same address and that the owner lived there. The male showed me how to approach the front door, to which I then knocked on the door. After I had knocked on the door multiple times, no one had answered the door. I then left my business card on their front door and the front windshield of the white Chevrolet.

Incident Report for P25-0400

Once I got back to the Paonia Police Department, I had noticed that I had received an e-mail from Richard, which had granted me access to their "Ring" doorbell. I was then able to look through the footage of the camera, but the camera would only record when a person would walk in front of the residence. The camera did not have any footage of the accident.

At about 1940 hours, I again attempted to contact the owner of the white Chevrolet at [REDACTED] Onarga Ave, but no one had answered the door after multiple knocks. I had also observed that the cards I had left on the door and front windshield of the white Chevrolet had not moved. Since I had not contacted anyone as of today's date, I left the scene without further incident and this case's investigation is still pending.

My department issued body camera was activated and all available footage will be attached to this report.
