This image being circulated around town and social media that also includes 10 reasons that the town administrator Stefen Wynn, MPA, ICMA-CM should be fired contains inaccurate and misleading information, arrives at conspiratorial conclusions and has reached a level of harassment that I believe has directly put my personal safety and that of my family in danger. These flyers have been posted next to no kings rally flyers and infer that I'm a king - with 500-600 people potentially being in town today for that rally, I've had to move my family out of town for the weekend for safety reasons. Who does this need to be forwarded to at the county level to begin seeking a protection order from Mr. McCarthy and his accomplices, namely Kaja Bowman, who was seen handing this flyer out to people and posting this flyer around town earlier this week. It is no surprise that she would do that since I terminated her employment with the Town in October 2025, but she is also my lot line sharing neighbor - further exacerbating the issue and making this now a matter of safety for my son with level III autism who can't comprehend why he can't go next door to play.

Stefen Wynn, M.P.A.
